

Jazz BT

This is a Slab typeface of wide proportions with heavy drop endings, which emphasize its SemiDisplay character. Jazz BT is designed to be used in intermediate reading texts, such as magazines or brochures, where there's a need for establishing a differential identity without sacrificing legibility.

The uppercase design has proportions that lean towards Art Nouveau, where some letters have small or exaggerated counter-forms, making all caps compositions very useful for logotype design.

EULA All of our fonts are subject to an international EULA. In Bastarda we have a unique license, our fonts can be used in Logo, Web and Desk. For more information please write to us.
