

# SALSA BT

Salsa BT was born as a typographic revival from an extended research over the work of Izzy Sanabria. We worked on 3 variations of the "FANIA ALL STARS" "Live from the Cheetah" Vol.01. and Vol.02 (also, one of the most beautiful disco logos).

We are huge admirers of Sanabria's and this is a tribute to his imagination.

The font is free, mainly because we want to spread Salsa from our Latin American context to anyone who downloads this typeface.

We did a short talk about this project in the Letterform Archive in 2022. Please excuse our English, but please do try and watch it. Finally, we developed the Cyrillic expansion hand to hand with Nikita Lyubarshchuk, to whom we send a big hug and extended it to his relatives in Ukraine! – Many thanks to Diego Ardila from NoPro®, who made this possible through his ideas and utmost respect for music.

\*EULA\* All of our fonts are subject to an international EULA. In Bastarda we have a unique license, our fonts can be used in Logo, Web and Desk. For more information please write to us.
