[ENG] Afrika BT is a Sans Serif with grotesque and broad strokes. The proportions of this font give it a strong personality. Its terminals with strong angular diagonals are mixed with very rounded curves, which brings quite a visual twist to some characters.

This typeface is designed to call attention, and is versatile enough to work in both headline text and medium length paragraphs, where both upper and lower case are needed.

In this typographic project the numbers carry even more flare, which is meant to be a surprise during reading.

[ESP] Afrika BT es una Sans Serif con trazos grotescos y amplios. Las proporciones de esta fuente hacen que cargue con mucha identidad, en donde se mezclan terminaciones con diagonales angulares fuertes, con curvas muy redondas, en algunos caracteres estas curvas son casi un giro completo.

Afrika BT esta pensada para ser usada para llamar la atención, con la versatilidad de funcionar en textos tanto de titulares como en párrafos de extensión media en donde se necesiten las dos cajas en uso.

En este proyecto tipográfico los números fueron explorados con aún más carga de identidad para sorprender al momento de aparecer en la lectura.
