[ENG] This type is inspired by descriptive texts on museum pieces and artist catalogs. The structure of each letter of the Kiffo BT typeface is built around strong geometric shapes in contrast with organic lines. In short, this is a Grotesk typeface that lives between static and flow. It is meant to be compatible with a multilingual world. As of now, it works in more than 20 Latin-based languages from Central, Western, and South-Eastern Europe. Plus 10 Slavic languages based on the Cyrillic alphabet, Serbian and Bulgarian localized forms and a sexy Greek hottie. We also plan to extend it to include Hebrew and the languages of Colombian indigenous communities.

[ESP] Textos descriptivos en piezas de museo y catálogos de artistas inspiraron este tipo de letra. La estructura de cada letra de la tipografía Kiffo BT se construyó con fuertes formas geométricas contrastadas con líneas orgánicas. En conclusión, la tipografía es una Grotesk que dialoga entre conceptos estáticos y fluidos. Está pensada para ser compatible con un mundo multilingüe. Por el momento, admite más de 20 idiomas basados en el latín de Europa Central, Occidental y Sudoriental. Además, 10 idiomas eslavos basados en el alfabeto cirílico, caracteres especiales serbios y búlgaros y un sexy griego. Planeamos generar también el sistema de escirtura hebreo y los idiomas de las comunidades indígenas colombianas.
